Section 5: Details of Representation

Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the Duty to Cooperate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the Duty to Cooperate, please also use this box to set out your comments.

Unsound because it is not clear that most of Craven is a Valued Landscape and an Area of Great Landscape Value requiring landscape assessments for potential developments and a Landscape Management Plan.

(Continue on a separate sheet if necessary. Please remember to include on any separate sheets the name/organisation and details of which section, paragraph, policy or element of the policies map your representation relates)

Soundness
ENV1

Env1 fails to adequately take into account that all the countryside around Craven outside the then built-up part of Skipton was identified as "highly valued" Valued Landscape in the 2002 Study.

ENV1 makes no mention of valued landscapes or landscape sensitivity, but refers to the Craven Landscape Appraisal of 2002, rather than updating it.

The West Riding Development Plan designated the whole area of Craven outside the then built-up limit of Skipton as an Area of Great Landscape Value and of county importance. The 2002 study shows a 'Special Landscape Area' across the whole Plan Area of Craven District Council.

https://www.cravencdc.gov.uk/media/3091/lca_figure_4_landscape_character_types.pdf

Other authorities have looked more closely at both valued landscapes and at landscape sensitivity as part of their Local Plan process. Craven has not revised its designation of the whole area as a Special Landscape Area, and the Plan does refer to the 2002 document.

NPPF allows authorities to protect valued landscapes and to give damage to a valued landscape as a reason for refusal of planning permission (para 109). Local Authorities can designate Areas of Great Landscape Value and can also elevate other sites to the status 'valued landscape' either in response to planning applications or in a more formal way. The whole of Craven outside certain excluded areas (including the then built-up limits of Skipton) was shown to be a highly valued landscape by the 2002 study and should continue to be an Area of Great Landscape Value.

Damage assessment requires not only valuation of the landscape – provided by the 2002 Study and including 'highly valued' sites now designated in the Local Plan as for housing – but also sensitivity valuation, which measures potential harm.

The whole setting of Skipton around its 2002 limits fall within the NPPF valued landscape provisions, and yet some of this has now been designated for housing presumably on the grounds that the harm is outweighed by the need. This requires sensitivity evaluation of the harm to the valued landscape.

We have not seen the explicit evaluations and are concerned that Craven may have failed to carry out adequate sensitivity evaluation of sites within the Special Landscape Area identified of the 2002 Study in order to assess damage. Other authorities such as Plymouth have carried out explicit sensitivity evaluations.

We believe that such sensitivity evaluation would have identified the Haw Bank site, and perhaps others, as highly sensitive landscape as well as highly valued.

Sensitivity is “about the degree to which the landscape in question is robust, in that it is able to accommodate change without adverse impacts on character. This involves making decisions about whether or not significant characteristic elements of the landscape will be liable to loss... and whether important aesthetic aspects of character will be liable to change.”

We do not think that the Plan makes it clear where and whether the Landscape Management Strategies and Plans of the 2002 document still apply to the newly designated housing sites within the 2002 Special Landscape Area, and if not why not, and whether the new Local Plan is consistent with the 2002 document which it cites

https://www.cravenc.gov.uk/media/3092/lca_figure_5_landscape_management_strategies.pdf

We object to the Plan not making it clear that the designation of all countryside around Skipton is valued landscape, as both the 2002 Study and the previous West Riding Plan did.

Modification to ENV1;

h) Support proposals which recognise that all countryside in Craven Plan area is part of a Valued Landscape.

Section 6: Proposed Modifications to the local plan

Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB Please note that any non-compliance with the Duty to Cooperate is incapable of modification at examination) You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

(Continue on a separate sheet if necessary. Please remember to include on any separate sheets the name/ organisation and details of which section, paragraph, policy or element of the policies map your representation relates)

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not be a subsequent opportunity to make further representations based on the original representation at publication stage.

After the representations period of the Publication Craven Local Plan has closed, further submissions will only be at the request of the Inspector, based on the matters and issues debated at the examination.

Fail to include setting of
non-designated heritage assets
in art 2(e)

(Continue on a separate sheet if necessary. Please remember to include on any separate sheets the name/organisation and details of which section, paragraph, policy or element of the policies map your representation relates)

ENV2: NON-DESIGNATED HERITAGE ASSETS

Policy ENV2(e)

Modification: We ask for the addition of “and are sympathetic to their setting.”

It is often the case that non-designated assets are of value as a group, rather than individually, and that their setting (for example a High Street, a churchyard, a yard, a terrace, or other adjoining non-designated assets) is part of their heritage value. It is not only development of the actual non-designated asset that may affect this value, but development of adjoining property.

We know that the above wording regarding sympathy to setting is used in other local plans, such as that of Plymouth which supports “Development which is sympathetic to the setting of non-designated heritage assets.”

VITALITY OF TOWN CENTRE and FRONTAGES

The council has over the past few years been unable to defend decisions not to allow changes of use from retail to leisure or other non-retail uses because its former Frontages Policy went out of date and it had no new Local Plan. Now it has a new plan, but apparently without a clear Frontages Policy.

Policy EC5 says: "Within the primary retail area of Skipton as identified on the proposals map, the primary retail function of this area will be safeguarded."

Our question is – Will this policy enable the planning authority to reject applications for non-retail uses on ground floors, in favour of retaining retail uses, where it wishes to do so?

The covering text says that the council will aim in Skipton for "The distinct balanced mix of main town centre uses at ground floor level along primary shopping frontage with the majority of each primary frontage section on the local plan maps being in retail use." But this is in the covering text, and not backed up by a Frontages Policy.

Modification:

It should be clearer that this is a Frontages Policy and stated as a Policy not just in the covering text.

Plymouth has a Frontages Policy for the smaller towns in its area, which clearly states that it will support proposals which:

- i. Result in the loss of ground floor premises in retail use (Use Class A1) within primary frontages to uses within Use Class A2 and A3 only where they do not create a continuous frontage of more than two non Class A1 uses and would not result in more than 15m of continuous frontage in non-Class A1 use.
- ii. and iii. Do not result in more than 35% (or in some places, 25%) of the overall number of units within the defined Primary Shopping Frontage being in non-Class A1 uses
- iv. Provide uses outside Classes A1, A2 or A3 in ground floor premises within primary frontages only where the use would achieve a significant improvement in the vitality and viability of the centre.
- v. Result in the loss of ground floor premises in retail use (Use Class A1) within secondary frontages to other main town centre uses only where they encourage footfall within the centre and support the main functions of the rest of the centre.

Modification:

We would like to see the inclusion of a Plymouth-style frontages policy that avoids continuous frontages of non-retail uses.
