"PLAN Selby" is the Sites and Policies Local Plan which the Council is developing to deliver the strategic vision outlined in the Core Strategy that was adopted in 2013. When adopted, PLAN Selby will form part of the Local Plan for the District against which planning applications will be assessed.

This consultation is the first stage in our on-going dialogue with you and we hope that you will take time to respond to it and help us move forward. The responses to this consultation will help inform our work and shape the District for the future.

Comments are therefore invited as part of this Initial Consultation.

Please use this form to make your comments.

Please read the main document PLAN Selby and associated papers, which are available on the Council's website at www.selby.gov.uk/PLANSelby and at local libraries and Public Council offices.

Thank you for the invitation to help shape the future of Selby and the areas that surround it. I can see from the 107 pages in the outline document alone, that an enormous amount of effort has gone into the creation of this document, but it fails spectacularly on a couple of simple points: it is far too complicated for the lay person to understand and too long winded for the average person to have the time to digest in order that they may understand it. I am fortunate enough by definition, to be in the top 5% of the nations intelligence, arguably defined by the A-levels I undertook while at Sixth Form, and I went on to become a military pilot, among other things. If I have difficulty, and or lack the resolve to comprehend this document, I sincerely ask you, what chance does the broad majority of the population have?

If no one involved in the creation or dissemination of this document, can comprehend this, before it is transmitted with pomp and declaration, then what hope has the authority of actually addressing the issues supposedly contained within it?

Any lay person would need to be exceedingly well connected, not to mention having tens if not hundreds of spare hours free, to be able to deduce from the pages and pages of bureaucratic language, what is being considered. In fact, what is being considered is not even contained within the document; only statements about greenbelt and the such like, that reinforce the usual stated policies of not changing existing policies, unless of course there is an exceptional need. Most people see that statement as the ultimate justification for the local authority to do exactly as they wish, without any regard what so ever, to the people they are meant to serve.
