"PLAN Selby" (The Sites and Policies Local Plan)
Initial Consultation Comments Form**

"PLAN Selby" is the Sites and Policies Local Plan which the Council is developing to deliver the strategic vision outlined in the Core Strategy that was adopted in 2013. When adopted, PLAN Selby will form part of the Local Plan for the District against which planning applications will be assessed.

This consultation is the first stage in our on-going dialogue with you and we hope that you will take time to respond to it and help us move forward. The responses to this consultation will help inform our work and shape the District for the future.

Comments are therefore invited as part of this Initial Consultation.

Please use this form to make your comments.

Please read the main document PLAN Selby and associated papers, which are available on the Council's website at www.selby.gov.uk/PLANSelby and at local libraries and Public Council offices.

You will need to see what is in PLAN Selby in order to make your comments. It contains a wide range of issues and specific questions on which we would like your views. Please make sure you are clear about which part of PLAN Selby you are commenting on and ensure we have your full contact details so we can take your comments into account and so that we can contact you about the next stages.

Topic / Chapter: How should Thorpe Willoughby grow and develop?

Question no.: Q57

Paragraph: A

Comment: Thorpe Willoughby requires more doctors & dentist surgeries, due to the influx of more people arriving in the village and with the increase of new homes being built the infrastructure of the

village needs to be able to cope with this intake, also I believe there is room for more small local shops especially bakers, butchers, and even the possibility of take away's as the nearest to the village is Brayton and Selby.

Topic / Chapter: What else is needed in Thorpe Willoughby that could be allocated a site.

Question no.: Q57

Paragraph: B

Comment: Thorpe Willoughby at present has a good social and activity bases environment, there for i feel there is no improvement needed in this area at present.
