Subject: Comments from Duty to co-operate session

Thank you for the opportunity to attend and comment.

There are no statutory duty comments.

General comments;

- It would be useful to understand the interaction between the housing strategy and the plan for older persons housing and housing for those with learning disability and mental health needs in the district.
- The infrastructure delivery plan highlights healthcare needs but does not feed these through to the costed plan.
- More detailed planning is required around the housing / population growth to understand the infrastructure implications for general practice.

I would welcome the opportunity to have a focussed meeting on these issues after the middle of September.

regards

Karina Dare | Project Director - York
