

Conclusions

This section sets out how the Market Towns Study will be used to inform the “Preferred Options Draft PLAN Selby”.

Let's Talk

PLAN SELBY

CONCLUSIONS

14th January 2016 Revision A

Conclusions

The purpose of the Market Towns Study was to review the range of previous studies and projects as well as the emerging evidence and studies that Selby District Council has prepared and/or commissioned. The arising issues were explored in the series of focused engagement workshops.

The workshops attended by both technical and community representatives has also allowed focused discussions for the Market Towns to be undertaken around the emerging options and sought to develop a series of objectives for each town that reflected the identified deficits, needs and aspirations for each community.

All the evidence including the views received during the plan preparation will be taken into account as the Council prepares its “Preferred Options Draft PLAN Selby”.
