

## Richmondshire District Council

### Local Development Scheme (January 2013)

This Local Development Scheme(LDS) sets out a summary of the key Local Development Plan documents the Council expects to produce and a timetable for their production. It updates the timetable adopted by the Council on 24 July 2012. This revision has been made necessary as a result of organisational change following the dissolution of shared service arrangements with Hambleton District Council.

### Richmondshire Local Plan

The Local Plan is the statutory development plan for the eastern part of Richmondshire which lies outside of the Yorkshire Dales National Park. It is the implementation plan for the Council's spatial vision and land-use related objectives. It sets out the spatial strategy and policies for the use of land and buildings in this area and forms the basis for the assessment of all planning applications, together with national planning guidance. The key elements of the Local Plan are:

#### Core Strategy

This strategic policy document will provide the up-to-date guidance required to enable the Council to make planning decisions based on local conditions and will replace many of the remaining saved policies (September 2007) of the Richmondshire Local Plan adopted in September 2001.

#### Delivering Development

This document will provide site allocations, land use designations and revised Development Limits for settlements identified in the Local Plan Core Strategy Spatial Principle SP2. It is being produced as a separate document to enable timely adoption of key strategic policies. It will include an updated and revised Proposals Map.
